SUMMARY

UI/UX Designer with a love for designing clean, user-friendly mobile and web interfaces and turning ideas into seamless experiences. Expert in Figma, building design systems & user-centric design. I look forward to joining a creative team to build impactful digital products.

EDUCATION

Bachelor's Degree in Computers and Information <i>Tanta University</i>	10/2022 – 02/2027 Tanta, Egypt
--	-----------------------------------

PROJECTS

EduHub – Smart Educational Platform (Freelance) 🔗 <i>UI/UX & Design System</i>	01/2026 – 05/2026
--	-------------------

- Designed a smart educational platform with 4 customized portals (Admin, Teacher, Student, Parent) featuring complex information architecture and user management flows. Built the complete User Journey, wireframes, and responsive UI from scratch, delivering production-ready assets.

Tolab – University Students Hub App 🔗 <i>UI/UX & Mobile App Design</i>	10/2025 – 12/2025
--	-------------------

- Designed Tolab, a smart mobile platform tailored for university students (especially Faculty of Computers and Information) to centralize academic files, schedules, and interactive features.. Architected the Information Architecture (IA), wireframes, and comprehensive UI for both Light & Dark modes with a flexible color system... Delivered a fully structured Design System with organized component states and production-ready assets for developer handoff.

PitStop – Car Maintenance Mobile App 🔗 <i>UI/UX & Mobile App Design</i>	07/2025 – 09/2025
---	-------------------

- Designed PitStop, a smart mobile application connecting car owners with trusted workshops for faster and reliable maintenance... Architected the complete user journey (map browsing, booking, payments, and tracking) and built responsive UI layouts with production-ready assets.

Gharbia Treasures – Regional Industrial Web Portal (Freelance) 🔗 <i>UI/UX & Web Design</i>	03/2025 – 05/2025
--	-------------------

- Designed Gharbia Treasures, a specialized regional industrial web portal highlighting local manufacturing, traditional crafts, and economic reports... Architected a clean, card-based web layout with structured navigation and optimized visual hierarchies for a seamless content-heavy reading experience.

UI/UX & Mobile App Design

- Designed "Smart Guide Egypt", an innovative tourism mobile app bridging tourists with certified tour guides across Egypt... Architected dual user personas (Tourist Mode vs. Guide Mode) featuring smart destination discovery, interactive maps, AR spots, and guide dashboard interfaces... Delivered a complete design system, user flows, and structured UI components ensuring an engaging cultural exploration experience.

SKILLS

UI Design & Tools

Figma, Design Systems, Auto Layout, Wireframing, Responsive Web Design, Mobile App Design, Prototyping

Visual & Interaction

Visual Hierarchy, Typography, Color Theory, Component States, Dark/Light Mode

Development Basics

HTML, CSS, Developer Handoff

UX Research & Strategy

Information Architecture (IA), User Flows, User Personas, Usability, Problem Solving

Collaboration & Handoff

Developer Handoff, Cross-functional Collaboration, Version Control, Asset Organization

LANGUAGES

Arabic

Native (★★★★★)

English

Professional Working Proficiency (★★★★☆)
